Meet our Design collection.

Thinking about design is hard, not thinking about it can be disastrous.

SUSTAINABILITY | ACOUSTICS | DESIGN

You don't design a space. You define an experience.

We believe in shaping interiors that inspire, comfort and endure. Our Design collection showcases an interplay of patterns and textures. Every design speaks its own language.

Discover our new generation of sustainable premium woven vinyl flooring.

Designed and sustainably manufactured in Belgium. Ask us about our road to zero waste !

Excellent acoustics.

Elevate your space with Greenfelt, our eco-conscious integrated acoustic underlay made almost entirely from recycled materials (93%). Reducing noise and enhancing comfort.

Beautiful design. Extremely durable.

Pair our Design collection with elements from our Colours or Core collection to create a striking balance of harmonious contrast or daring combinations.

Fit for designers, easy to maintain and suitable for heavy commercial use (usage class 33).

Let's design an acoustical & sustainable future together !
